IntelIntent - Concept Brief

Simplifying life today, empowering collaboration tomorrow, creating a legacy of intelligence for future generations.
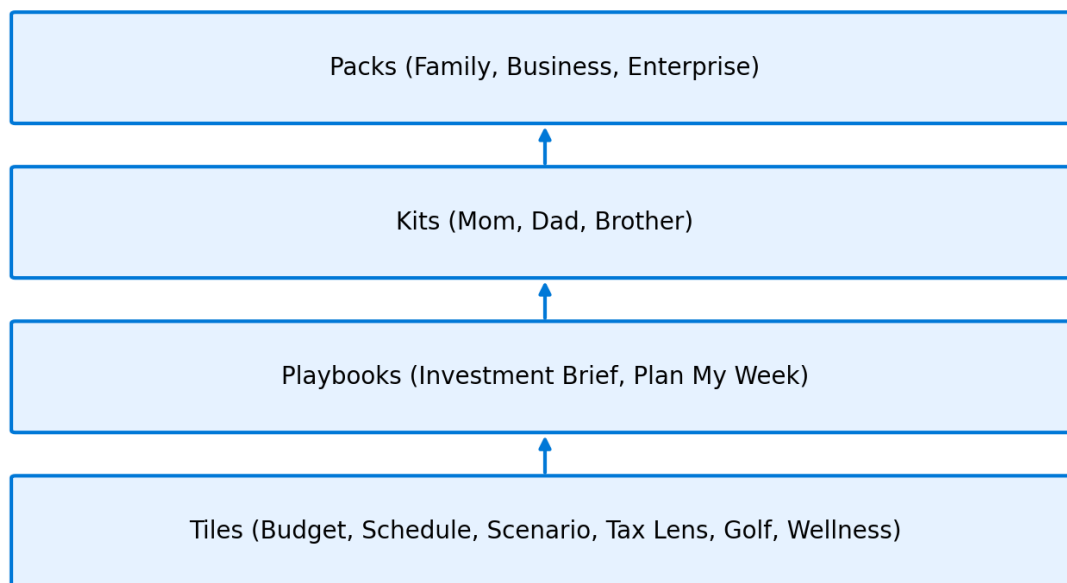

Executive Summary

IntelIntent is our family's intelligent core - an intent-driven system that orchestrates modular experiences across personal, family, business, and enterprise.

Core Principles

- Intent-Driven

- Modular Experiences

- Explainable & Secure

- Scalable

- Partner Success Integration

Modular Experiences (visual)

Modular Experiences: Tiles -> Playbooks -> Kits -> Packs

Packs (Family, Business, Enterprise)

↑

Kits (Mom, Dad, Brother)

↑

Playbooks (Investment Brief, Plan My Week)

↑

Tiles (Budget, Schedule, Scenario, Tax Lens, Golf, Wellness)

How it Works

Ask -> Orchestrate -> Execute -> Explain -> Log

Architecture (visual)

IntelIntent Flow: Ask -> Orchestrate -> Execute -> Explain -> Log

| Ask (natural language) | → | Orchestrate (match to tiles) | → | Execute (data + policy) | → | Explain (sources + math) | → | Log (approvals) |
